Network Meeting

Taking advantage of the FJCC in Houston, I have scheduled a meeting of the Network Working Group in room Astro VII of the Astroworld Hotel at 8:00 p.m. on Monday, November 16, 1970.

The purpose of this meeting is to discuss several topics related to the pratical use of the network. I have in mind:

(a) accounting mechanisms

(b) documentation distribution

(c) person-to-person message sending and message storing

(d) access to systems by foreign users

Attendees are invited to raise other topics.

I envision that this meeting will spawn smaller subsidiary meetings during the FJCC to pursue these or related topics.

Prospective attendees should notify my secretary Benita Kirstel (213) 825-2368 so that we can be sure the room is large enough. Unexpected attendees are nevertheless invited.
